

## DIAMANT

We put together a few hand-picked employees for a joint task – to create the best the best espresso machine imaginable. They are now done. The result is a machine with properties and technical solutions that would make any barista envious. When the machine was presented for the first time, the name came naturally. It is a Diamond.

Diamant is an exclusive espresso machine that is fully-equipped with technical innovations and high-class finishing touches. Diamant is created to draw attention, both for its beautiful design and for its genuine quality. Optionally, Diamant can be ordered in custom colours and with the equipment you want.

### UNIQUE PROPERTIES

Diamant has a large steam boiler and separate boilers for each brew group. The machine is equipped with an advanced PID-sensor system for exact brewing temperature. These fittings allow you to adjust the temperature individually for each brew group. The result is a perfect espresso that reveals the unique character of the espresso bean.

### VARIANT

## 2 GROUPS

Diamant also comes in a smaller model. It is a variant with 2 brew groups instead of 3 and a somewhat smaller boiler capacity. Otherwise, the machine uses the same technology and offers the same functions and equally attractive options and accessories as the larger model.

### STANDARD COLOURS

Pearl White

### COLOUR SELECTION

You can special order Diamant in exactly the colour you want for the machine. We adapt Diamant precisely according to your wishes.
